2       **ABSTRACT**  
3

4       A data protection portion includes the file alteration checking portion.  
5  
6       One aspect of the file alteration checking portion relates to a media  
7       including game content and a data protection portion. In one version, the  
8       data protection portion protects the game content from modification by  
9       determining whether the game content has been modified. If the game  
10      content has been modified, then the installation of the game content within  
11      the apparatus fails.
